

FS70 WINDOW SYSTEM

For a softer, sculptured appearance

Achieves A++ rating requirements

Secured by Design

Official Police Security Initiative

SMOOTH CLEAN SIGHTLINES TO TRANSFORM YOUR HOME

With its perfectly balanced curves and slender sightlines this great system creates a unique appearance that blends well in any property or building, whether it's in a heritage setting right through to a modern development.

Goldseal Conservatories Ltd work with The VEKA UK Group to offer some of the most highly regarded uPVC products on the market. The VEKA UK Group have pioneered the design and manufacture of window and door systems for over 30 years. With a continual investment in the profile systems it is now one of the most technically advanced on the market. A 10 year guarantee on all products, gives the added confidence that once fitted VEKA products will last for many years. Just a few of the many reasons VEKA is now one of the most specified uPVC systems in the world.

Why choose the fully sculptured window system?

For enhanced security

For added peace of mind our fully sculptured windows can be easily upgraded to Secured by Design. As standard all of our windows and doors are fitted with the market leading security hardware incorporating shootbolts and hook locks. One simple upgrade to meet the Secured by Design specification for the ultimate deterrent to intruders.

Ease of maintenance

Life is too short to be sanding and painting timber window frames, or even the older PVC frames still require some effort. The Fully sculptured window system makes all this so much easier... All it takes is a simple wipe with a soapy cloth. No mess and definitely no fuss.

For a perfect match

Whether it's the traditional front and back door, french double doors, in-line patio, tilt & slide, composite doors or bi-folding doors, you can enjoy the looks, security and weather resistance to perfectly match your fully sculptured windows.

Design

- Can be used to create virtually any style of window or door, tilt and turn, casement, residential doors, french doors and many others.
- Foam thermal inserts and triple glazed option.
- Galvanised steel reinforcements.

Glazing

- An A++ energy rating can be achieved.
- 36mm triple glazing can be added for extra thermal efficiency.

Fittings

- We have a great range of hardware that will stand the test of time and properties. Available in white, bright chrome, satin chrome, bright bronze, graphite grey, gold, black and antique black, all supplied with a 10 year guarantee.

Colours

- VEKA offer a fantastic range of plain colours and woodgrains to offer individual solutions to suit all tastes.
- Foils can be applied to one side or two and different colours can even be specified for the inside and out.

COLOUR CHOICES

Colour in the specification of windows and doors is one of the most important design features after the obvious quality and technical features.

VEKA offer a fantastic range of plain colours and wood finishes to offer individual solutions to suit all tastes. The colours of windows adapt themselves harmoniously to each and every installation.

Foils can be applied to one side or two and different colours can even be specified for the inside and out.

30 colour variations are offered as standard all supplied with a 10 year colourfast guarantee.

All VEKA profiles are available in a great range of foils and woodgrains as standard. Please note, colours shown are for guidance only and not a direct colour match.

For the best
